Detroit Profile

Hockeytown.*

Detroit is referred to all of these names interchangeably. Detroit is a city built by cars and is the automotive capital of the world. In 1960, Detroit

Berry Gordy was searching for a name for his record company and combined motor and town to come up with Motown Records. Young Detroit talent turning out hit after hit gave Detroit its famous nickname of Motown. Hockeytown represents the avid fans of the Detroit Red Wings.

In 2007, Detroit was ranked as the 11th largest city with 918,849 residents. Sometimes Detroit is referred to as the Detroit Metro Area, which includes the surrounding cities and has a population of 4,468,966 people.

There's a new buzz about Detroit. Each day, more and more people visit the new shops and restaurants, go to the theaters and bars, and pack into crowded music
